SUMMARY

Web3 security specialist and developer advocate passionate about scaling blockchain adoption. Proven track record in creating developer resources, conducting technical workshops, and building engaged web3 communities.

EXPERIENCE

Developer Advocate || Community Lead

LearnHub Africa   **May 2023 – Present, Lagos, Nigeria**

· Spearheaded hackathons, meetups, and forums, resulting in a 30% growth in active community members.
· Executed innovative growth strategies, partnership programs, and advocacy campaigns to expand the developer ecosystem in 36 states.
· Documented release updates, translated technical changes into user-friendly language, and ensured that all related documentation stayed up-to-date with the latest product version.
· Collaborated with software engineers and subject matter experts to create accurate, clear, and user-friendly documentation.

Technical Writer

Hackmamba   **December 2021 – Present, Delaware, United State of America**

· Conducted extensive research and analysis of Python, web3, and cloud computing content.
· Collaborated with content management teams, creative teams, and writers to create and update technical documentation related to Python, web3, and cloud computing.
· Created over 60 technical documents related to Python, web3, and cloud computing, optimizing them for search engine visibility and ensuring the accuracy and completeness of technical information.

Technical Author

LogRocket   **January 2022 – May 2023, Jan 2022 – May 2023 · 1 yr 5 mos**

· Researched and analyzed Web3 tech like blockchain, dApps, and smart contracts. Produced high-quality technical content.
· Authored guides, tutorials, and blog posts on Web3 concepts clearly for developers.
· Collaborated with engineers and identified Web3 dev trends and challenges.
· Curated content roadmap addressing 80% of Web3 developer needs.

PROJECTS

3MTT Cybersecurity Mentorship Project

3MTT Project · 3mtt.nitda.gov.ng/ · January 2024 – Present
· Trained and supported 300+ fellows in security architecture and procedures.
· Supported over 45% of the fellows in real-world experience simulations using tools like Nmap, Nessus, and Metasploit.
· Trained fellows in developing skills in pentest, IDS, spoofing, Password cracking, and escalation of privilege.

EDUCATION

Bachelor of Arts (BA), International realation and diplomacy

University of Benin · 2015

CERTIFICATIONS

Certtified Blockchain Practitioner

The Secop Groups · 2023
· My certification has provided me with in-depth knowledge and skills in blockchain technology that I can use to write high-quality technical content in networking.

Ethereum and Solidity: The Complete Developer's Guide

Udemy · 2022

ICSI | CNSS Certified Network Security Specialist

ICSI (International CyberSecurity Institute), UK · 2020

Enterprise Design Thinking Practitioner
IBM · 2020
